## **Florida Cemetery, Cremation & Funeral Association Endorses Eagle's Wings Air**

TALLAHASSEE, FL – The Florida Cemetery, Cremation and Funeral Association (FCCFA), Florida's leading and only association representing all sectors of the death-care industry, is proud to announce the recent selection of Eagle's Wings Air (EWA) as the **FCCFA Endorsed Partner** for air transportation management services.

The FCCFA Endorsed Partner Program represents a carefully selected group of suppliers and service providers who are uniquely positioned to offer the FCCFA membership exceptional value. While considering whether to select Eagle's Wings Air, FCCFA's Board of Directors noted EWA's innovative and trustworthy reputation, its proven airline and aviation security expertise, and its advocacy efforts on behalf of the entire funeral service profession within the airline community. "One of our missions is to identify cutting edge solutions which support the ability of our members' to better serve their client families. This was an easy choice for us," said Leigh Ann Bradley, FCCFA Executive Director.

FCCFA President, Lee Longino stated "EWA has tremendously helped our company, specifically our funeral directors in saving them time and minimizing any headaches that are involved with shipping human remains. We are able to allow our funeral directors to do what they do best, creating memorable celebrations for the families instead of spending time arranging air transportation. Our funeral directors' focus is where it should be, with the families they serve thanks to EWA."

Eagle's Wings Air's president & CEO, Frank Kaiser comments, "When considering human remains shipping from an air transportation perspective, "Heaven's Waiting Room" (aka

Florida) is the largest market in the country. The FCCFA member firms are well-versed in dealing with the various airlines and making arrangements for the air transportation of human remains. It is gratifying to have our single-source service model recognized as a new option for FCCFA members to save time while also offering a higher level of service to client families being served. We are truly honored to be partnering with one of the leading State Associations and their membership. "

Established in 2007, Eagle's Wings Air (EWA) is the leading provider of air transportation management services to North American funeral homes and shipping services. Through a centralized customer service center, EWA leverages proprietary software and their knowledge of airline operations to find the best flight itinerary, make the reservation, and proactively monitor progress from start to finish; thus delivering time savings and peace-of-mind to their funeral service profession clients.
